SUMMARY

Experienced Front-end Engineer with 3 years of hands-on experience in developing and maintaining responsive, dynamic web applications using JavaScript, Next.js, React, and Firebase. Proficient in design, development, and testing of front-end applications. Seeking a position as a Front-end Engineer to use my skills and knowledge to create innovative applications.

SKILLS

Technical Skills: HTML/CSS/JavaScript, React, Typescript, Bootstrap, SASS, Tailwind CSS, Firebase, Node.js, Express.js, MongoDB, Chrome Developer Tools, GIT, Github, Vercel, Netlify

Soft Skills: Communication, Leadership, Time Management, Problem Solving, Multi-tasking, Team Management

EXPERIENCE

Front-end Engineer doodleblue Innovations

March 2021 - June 2023, Chennai, India

- Broad and diverse industry proficiency encompassing Health, Fintech, Edutech, Entertainment, IT Infrastructure Management, and Retail Management.
- Proficient in troubleshooting UI and performance issues of web applications, resulting in an impressive 80% reduction in load time.
- Mentored and guided a group of interns in developing front-end web applications using HTML, CSS, and JavaScript; fostered individual growth resulting in each intern successfully delivering their own fully functional web application.

Software Engineer 3E Software Solutions

November 2020 - February 2021, Bengaluru, India

- Developed a MEAN Stack application that managed and kept track of bills and warranties with a team of four people in four weeks, which reduced the number of forgotten bills and warranties by 20%.
- Implemented reusable components to improve functionality and user experience, resulting in a 25% decrease in page loading time.
- Developed the Server Side REST APIs using Node.js, Typescript, Express.js and MongoDB.

PROJECTS

Github Clone

- Actively engaged in the development of a GitHub replica, harnessing GitHub REST APIs, with a comprehensive feature set.
- Secure sign-in/up functionality using Github and Google Auth.
- A complete array of GitHub capabilities, such as repository browsing, issue management, and comment replication.

Query Flex

<https://queryflex.in/>

- Seamlessly integrated OpenAI API models into a Next.js TypeScript application, enabling the simulation of ChatGPT-like conversational interactions.
- Built the react components for the interface, and optimized the application for performance, increasing load speeds by 80%.
- Designed Firebase Firestore realtime functions to streamline the data flow process, reducing integration costs by 75%.

Google Drive Clone

<https://drive-2-0.vercel.app/>

- An emulation of Google Drive, complete with analogous features, robust Google and GitHub authentication, and seamless file sharing capabilities among diverse users, meticulously crafted using Next.js, TypeScript, and Tailwind CSS.
- Delivered an intuitive and responsive UI utilizing Tailwind CSS, Typescript and Styled Components, providing a reliable and consistent experience.

EDUCATION

Master of Computer Applications

Vellore Institute of Technology • Chennai, India • 2020

Bachelor of Computer Applications

Patna Science College • Patna, Bihar • 2018

INVOLVEMENT

Contributor

freeCodeCamp • February 2020 - Present

- Published detailed tutorial videos and technical blog articles on complex programming topics with over 20,000 viewers and more than 90,000 page views within the first few weeks.
- Created technical content for usage in tutorials, lectures, and webinars focused on skill development for the IT industry. Developed high-quality video content utilizing various multimedia elements, such as voice overs, screen recordings, sketches, slides, and whiteboard sessions.
